MTNT

An Alaska Native Corporation

CAPABILITIES STATEMENT

Our Company

Established in 1976, MTNT, Ltd. is an **Alaska Native Corporation (ANC)** owned by more than 465 Shareholders and headquartered in Anchorage, Alaska. Through its subsidiaries and Joint Ventures, MTNT provides CONUS and OCONUS U.S. Government and commercial customers with cleared staffing and secured services, professional technical services, information technology, construction management, strategic communications, specialized training and operations, facility maintenance, procurements and rapid contracting.

The Joint Venture

Anubis is a Florida Corporation with headquarters in New Hampshire, and offices in Northern Virginia, Texas and Alabama. The company was founded in 2008 to provide U.S. Military and federal government agencies with professional technical and project management services. Since opening its doors, Anubis program and project managers have successfully managed more than 80 Federal construction, demolition and IT projects.

With more than 59 combined years of experience, MTNT and Anubis have teamed to provide Federal customers with rapid 8(a) contracting access to our superior design/build construction, demolition, operations and maintenance, IT and professional services.

The depth and scalability of our combined capabilities is enhanced by our partnership. Through **MTNT Anubis JV, LLC**, we have merged our complimentary core capabilities and values of honesty, integrity and quality service.

Differentiators

- U.S. Military & Civilian Agency Program and Project Management Experience
- Customer focused, responsive with 59 combined years in business
- Exceptional CPARS
- Insured and bonded (\$25M Single; \$75M Aggregate)
- Specialized in rapid acquisitions
- Shared services company with management, operations, accounting, compliance, legal and human resources staff
- DCAA-compliant accounting system
- Facility Security Officer and cleared staff
- International experience
- Bona-fide offices in Alaska, Georgia and North Carolina

ANC 8(a) Unique Advantages

- Accelerated 8(a) process reduces acquisition time, effort and cost
- Allows contractor to support Government work scope and approach development during the solicitation process
- Provides exceptional performance control
- Awards cannot be protested [13 CFR 124.517(a)]
- Zero dollar ceiling on set-asides or sole-source contracts [13 CFR 124.311(b)]
- Procurement can be awarded on a sole source basis to an ANC without competition [13 CFR 124.506(b)]
- No justification and approval (J&A) required for sole-source contracts up to \$100M (DOD) / \$25M (FAR 6.303-1)

MTNT

Highlighted Past Performance

USACE AEC Building 1717 and 1735 Renovation
USACE, Fort Bliss, TX
W9126G-19-C-0151 | \$20 M

Provided Design, Bid, and Build for renovations to establish workspace, meeting, conference and briefing areas for the U.S. Army Support Soldier Readiness and Resiliency Center.

Demolish Bowling Alley, Building 1672
Joint Base Andrews, U.S. Air Force
FA2860-14-C-0055 | \$1.1 M

Anubis managed the demolition and site restoration of a one-story brick veneer, cinder block, and steel Bowling Alley Building. Included abatement and disposition of extensive ACM and restoration and grading of the site to match surrounding fields. Project completed with exceptional CPARS and without a single cost-increase change order.

IT Professional Technical Services, Hardware and Software
U.S Department of the Commerce, Bureau of the Census, Office of the Technical Integrator
YA 132317CQ0002 | \$22 M

Anubis made all contract purchases and supplied directly to the Government. Included IT hardware, software, technical staff and peripherals. Anubis also completed all contract NIST supply chain risk assessment requirements.

Repair/Replace Electrical Feeders and Transformers
Joint Base Andrews, U.S. Air Force, U.S. Department of Defense
FA286020C0013 | \$4.2 M

Project managed by Anubis to remove and replace the feeders running under and into Air Force 1 flight-line, runway, hangar and other highly secure buildings and areas. Included demolition and replacement of duct banks, high voltage cable, equipment switchgear and transformers. Project completed without a single safety incident or cost-incurred change order.

ARB Product Replacement and Repair Project
US Department of State, U.S. Embassy, Dar es Salaam, Tanzania
19AQMM-20-C-0237 | \$2.1 M

Provided Anti-Ram Barrier replacement and repair at the U.S. Embassy in Dar es Salaam, Tanzania.

Technical Instructors and Staff Instructor Support
U.S. Naval Construction Training Center, Gulfport, MS
N68836-15-P-0869 | \$4.1 M

Provided certified instructor support services for basic and advanced construction occupational field training to Army, Air Force and Navy Seabee personnel.

Automated Intersite Gateway, Corporate Data Repository and Joint Deficiency Reporting Systems
USAF Material Command, Wright Patterson AFB, OH
FA8770-19-D-0506 | \$11.9 M

Provided specialized IT staff to conduct support activities including help desk, network infrastructure, system/server administration, network engineering and configuration management.
